

Training Courses for Healthcare Professionals

Charles Bloe Training Ltd
PROFESSIONAL DEVELOPMENT FOR PEOPLE WHO CARE

Good people are the key contributing factor to the success of any organisation. Training, developing and ultimately retaining quality staff, is one of the biggest challenges facing the Healthcare Sector.

Charles Bloe Training has unrivalled knowledge and experience and a proven track record in CPD provision for healthcare professionals.

Whether you are looking to implement mandatory training programmes, or specialised courses, our team of clinical experts can help.

Our varied list of clients includes:

- NHS Acute Trusts
- Primary Care Trusts
- Private Hospitals
- General Practice
- Nursing Agencies
- Nursing and Residential Care Homes
- Ambulance Service
- Prison Service

Quality training is at the heart of everything we do.

Looking for Quality Training?

Our team of 75 tutors are all clinical specialists who maintain senior positions within the Healthcare Sector. This ensures that your staff receives up to date, evidence-based delivery from clinical experts who draw on their everyday experiences. Our tutors work within the sector and understand the challenges facing healthcare workers today.

We can also provide expert speakers for your own organised events and exhibitions

Course Portfolio

With a portfolio of over 100 programmes we are sure to have what you are looking for. We are constantly adapting and evolving our course portfolio to reflect the ever changing role of clinical practitioners. Prior to running your course our consultancy team will ensure that the content is tailored to your local requirements.

Here is a small selection of areas where we can help:

- Hospital at Night Specialist Training
- Venepuncture & Peripheral Venous Cannulation
- IV Therapy & Anaphylaxis
- Clinical History Taking and Physical Examination
- ECG Recording and Interpretation
- Cardiac Care and Coronary Thrombolysis
- Minor Injuries
- Practical Skills for Support Workers and GP Surgeries
- Telephone Triage
- Acute Medical & Surgical Emergencies & Trauma
- Arterial Blood Gas Sampling and Interpretation
- X-ray Interpretation
- Verification of Death
- Domiciliary Care Skills
- Mental Health

Our mandatory training programmes can help your workforce maintain skills and comply with your statutory requirements. Charles Bloe Training provides a complete range of mandatory training including:

- Basic to Advanced Life Support
- Moving and Handling
- Infection Control
- Food Hygiene
- Child Protection
- Health & Safety
- Control and Restraint
- Fire Awareness

We can deliver the theoretical component of this training online at a time that suits your staff thereby reducing the amount of classroom time required.

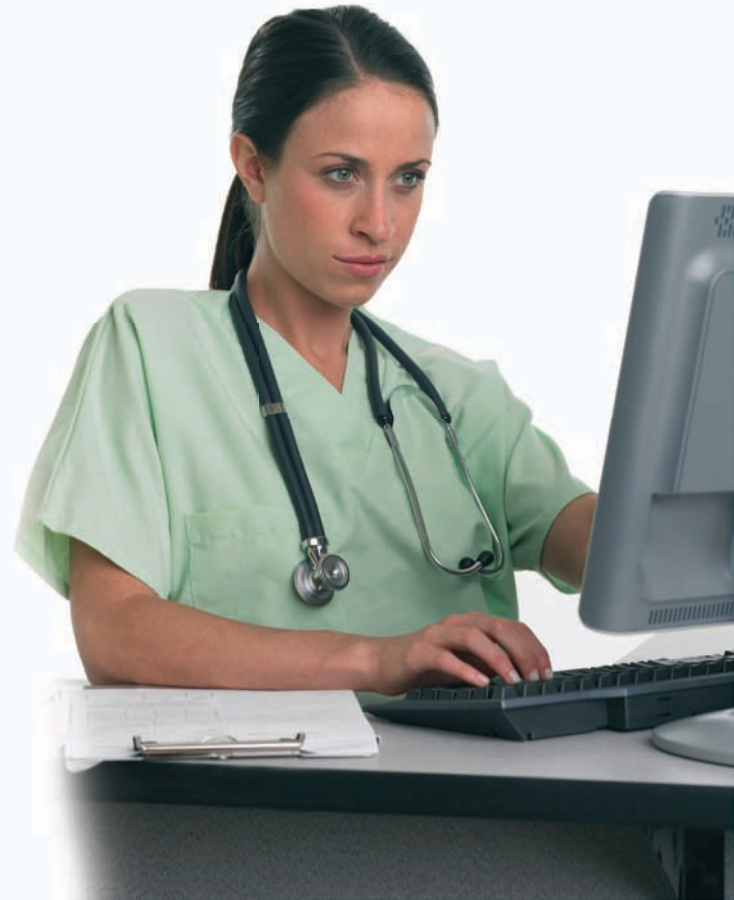

Charles Bloe Training understands the pressures facing employers in trying to implement CPD programmes. We provide an extensive portfolio of training courses that can be delivered on-site at your premises thereby ensuring maximum attendance and cost effective training. You pay a sensible fixed price with no hidden extras. We can train staff at your venue or arrange a convenient location to suit.

Our portfolio of online courses continues to expand and offers staff a flexible solution to CPD. Staff have the option to learn at their own pace without the constraints of location and time. We have over 100 short clinical seminars and an increasing number of validated short courses available including:

- 12-Lead ECG Interpretation
- Healthcare Associated Infection
- Interpretation of Common Blood Results
- Venepuncture & Peripheral Venous Cannulation

Our full portfolio of courses and free previews can be seen at www.cb-training.com

Our wide-ranging clinical experience and technical expertise enables us to advise clients on the best approach to flexible staff and customer training. We can integrate your existing resources onto a high quality e-learning platform. This enables your staff and clients to access training in a flexible, stimulating and cost-effective way.
